

ZOOM TIPS

We've noticed that some people are having trouble unmuting when it's time for them to be on the program. Here are a few tips that will, hopefully, resolve some of these issues.

Going forward, no matter how you join the service, whether you're using a tablet, laptop, landline, or cell phone, please do not mute yourself when you join the service. The Zoom host will mute you.

If you are on the program and you dialed in using a phone, you will need to unmute by dialing *6, when it's time for you to talk. There may be a slight delay, so do not dial it multiple times. Wait a few seconds to see if we can hear you. Again, do not click mute on your cell when you join the service because you may forget you've done this when it's time for you to speak.

If you have any questions or need further assistance, please reach out to a member of the Media & Technology Committee.
